◆	ANIMAL CRACKERS	TECHNICAL	1.5	UPPER
◆	GONZO	FREERIDE	0.8	LOWER

FREERIDE

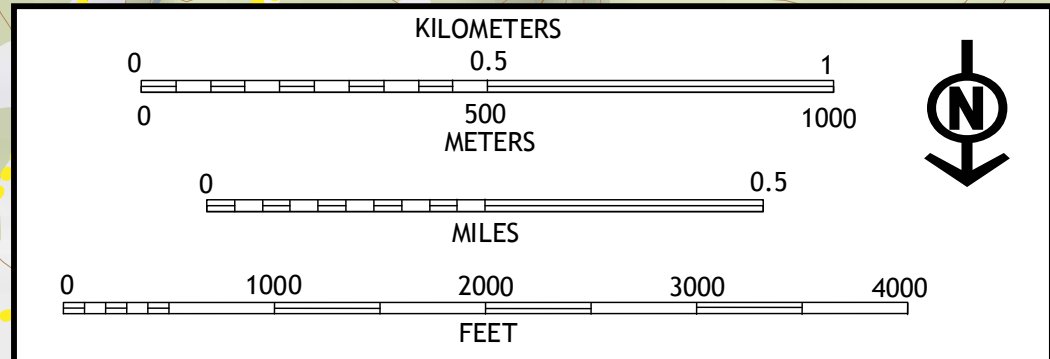

Freeride trails are machine-cut and contain man-made features. Routes are enhanced with dirt jumps, ride-on features, gaps, narrow surfaces, wallrides, berms and other natural or constructed features. All freeride trails are identified with an orange oval.

TECHNICAL

Technical trails are built by hand, and tend to be more natural including rocks and roots. Man-made features may be encountered. The trail is narrower and, typically, single-track.
