MANDATORY REPORTING OF SUSPECTED CHILD ABUSE AND NEGLECT

Most licensed facilities make every effort to provide a safe and healthy environment for children. Unfortunately, on rare occasions, an incident of physical or sexual abuse may occur. If you believe a child has been abused, you should seek immediate assistance from your county department of social services.

The phone number to report child abuse for the Pitkin County Department of Social Services is (970) 429-2040. You may also call the statewide hotline, 1-844-CO-4-KIDS, to report suspected child abuse or neglect.

Colorado law requires that child care providers report all known or suspected cases of child abuse or neglect. All licensed child care providers are mandated reporters that suspect child abuse or neglect, and follow the law set forth by the state of Colorado. Under the "Child Protection Act of 1987" (C.R.S. 19-3-301) in the Colorado Children's Code, child care staff members are required by law to report any incidents or suspected cases of child abuse or neglect. **As a staff member, we must report any incidents that we observe.** These reports will be filed with the Pitkin County Department of Human Services and/or the Pitkin County Sheriff's Office. Reporting suspicious child abuse is very difficult. It is unlawful to deliberately make a false report of child abuse. ALL staff must complete [Recognition and Reporting of Child Abuse and Neglect](#) PRIOR to working with children.

SOME OF THE WARNING SIGNS OF ABUSE AND NEGLECT MAY INCLUDE:

Unexplained injuries

Changes in behavior

Fear of going home

Changes in eating or sleeping patterns

Inappropriate sexual behaviors

WE PROVIDE training and education for staff providing an understanding of child sexual abuse and misconduct and provide tools to prevent it. Below are policy guidelines for staff. These guidelines are important to us because we care and are committed to building a community that is safe for children. All people working with children are required by law to report SUSPECTED child abuse or neglect (including sexual abuse).

ALL staff must complete Recognition and Reporting of Child Abuse and Neglect (Mandated Reporter training) prior to working directly with children. This training must occur yearly.

PROCEDURE ON GUIDANCE, POSITIVE INSTRUCTION, BEHAVIOR & CONSEQUENCES

The following discipline and child abuse codes MUST be adhered to:

- We will not permit an employee or child to use corporal or other punishment, including but not limited to pinching, shaking, spanking, punching, rough handling, hair pulling, or any humiliating or frightening method of discipline to control the actions of any child or group of children. Children shall not be subjected to threats.
- Punishment shall not be associated with rest, toileting or food deprivation. Separation, when used as discipline, shall be brief and appropriate for the child's age. The child shall be within sight of an adult in a safe, lighted, well-ventilated area. No child shall be isolated in a locked, closed room, or closet.
- Children shall be given multiple chances to stop inappropriate behavior. Adults should attempt to engage the child in another activity (re-direction). If the inappropriate behavior continues after adults have made many attempts to work with the child, then the director may need to set-up a plan with the parents.
- If a child physically hurts another child repeatedly, then the director may choose not to have the child in the program. This decision may NOT be made by anyone other than the director.

TAX ID # 84-0994002

- If a child's attention span or age is such that he/she cannot join group activities (i.e., story time), the adult shall find an alternative activity for that child such as looking at books in the quiet corner.
- Verbal abuse or derogatory remarks about a child, family, race, religion or cultural background shall not be permitted.
- Disregard of any of the foregoing disciplinary rules or any disciplinary measure resulting in physical injury or abuse to any child shall be grounds for immediate dismissal.

FILING A COMPLAINT

A child's educational, physical, emotional, and social development will be nurtured in a well-planned and well-run program. IN CASE OF EMERGENCY, ACCIDENT OR INJURY

Each day your child attends child care, parents will be asked to provide an emergency telephone number on our sign in sheets. In the event of a medical emergency, the parents will be notified, an EMT will be called and the child may be transported to Aspen Valley Hospital. Staff members are trained in first aid and CPR.
